Subject: Pacific Region Report

The Pacific region has focused on trying to revitalize several chapters during this reporting period.

The chapters in Washington (Seattle, Olympia, and East) are currently recruiting members and trying to revitalize their chapters.

AzADE is also working to bring up membership numbers. They met with the DDS administrator, and received full support for renewed efforts in the AZ DDS.

Nevada continues to show great effort in keeping NADE alive in their office. During this reporting period, they held monthly meetings, sent "happy mail" to staff monthly, and held raffles for staff members who donated to Donate Life through the month of April. They also participated in NDPW by hosting a virtual game show with prizes, sent themed post cards, and shared a slide show honoring how their workers Stand Tall.

No other chapters shared reports.
